

Genuine Toro® Parts Tines

Aeration Improves Turf Conditions.

Aeration keeps your turf looking great. It's important to aerate often especially when it comes to high traffic areas and with Titan tines on your team you'll know you have the best equipment to meet all of your aeration needs successfully.

New TITAN Tines Offer:

• More Choices

- Over 100 new tines provide multiple aeration choices
- Available in Quad, Hollow, Side-Eject, Shaped or Solid
- Titan™ Max designed with long lasting carbide tip

• Higher Productivity

- Standard Titan™ tines last approximately 3-4 times longer than previous Toro tines
- Titan™ Max lasts 18 holes or more!

• Better Performance

- Thin wall design allows for maximum core pulling and superior hole quality
 - Optimized core removes more thatch for maximum topdressing
 - Superior hole quality improves recovery time and maintains playability
 - Speeds up playability

• Increased Durability

- Tough design maintains consistent aerator depth and reduces costly changeouts
- Unique manufacturing process allows for thinner wall tine while maximizing durability
- 4130/4140 strong alloy combined with unique heat treat process maximizes strength and resistance
- Carbide tip constructed of tough tungsten carbide blend
- Durable brazed tip joint for strong bond and resistance to separation and breakage

Superior Performance In Action

Titan Max tines are the longest lasting tines on the market. Field comparison tests of equivalent Toro and competitive tines prove Toro Titan Max tines last longer.

- Titan Max lasted 19% longer than Competitor B
- Titan Max lasted 24% longer than Competitor A

To best protect your investment and help ensure superior performance—make sure to use Toro genuine tines. Because when it comes to reliable results, Toro delivers. For peace of mind, insist on genuine Toro parts.

Mount size compatible with most other brands of equipment

Improved design increases the ability to pull a better core

Lengths available to fit many applications

Thin wall for maximum core pulling

Durable-brazed Joint

Tough tungsten carbide blend tip (Titan Max Only)

Sharp cutting edge optimized for cutting into turf

Titan™ tines fit all current and late model Toro® aerators. Standard mount size fits most other brands of equipment. Check mounting size to ensure compatibility.

Toro® Parts

TORO®

Genuine Toro® Parts Mean Superior Results

For years Toro has built its reputation on unmatched quality and commitment to exacting standards—including all of its genuine Toro parts. Will-fit manufacturers don't have the same level of commitment to uphold so they often end up cutting corners on their parts to reduce costs.

The Toro Parts Pledge:

- Your Local Distributor Delivers Parts in 24 Hours
- Toro Supported 48-Hour Delivery
- Your Local Distributor And Toro Offer Industry Leading Parts Fill Rates
- Toro Performance Parts Pricing Is Comparable To Will-Fit Providers
- OEM Quality Parts Ensures Maximum Performance And Avoids Costly Downtime
- Dedicated Customer Service Supports Your Toro Parts Needs
